Experience

Laser Operator
Avito Products (October 2020 - Present)
Prepared designs for engraving using LightBurn software. Utilized the AutoHotKey scripting language for Windows to automate many repetitive computer tasks. Optimized LightBurn settings which increased production speed by 15%. Cleaned, inspected, and shipped tumblers after engraving.

Graphic Designer
Self-Employed (2017 - Present)
Creates unique designs that go on T-shirts, coffee mugs, etc. Made thousands of sales across dozens of products.

In-Store Shopper
H-E-B (January 2020 - June 2020)
Shopped and delivered orders to customers who ordered online. Promptly resolved issues with orders. Provided friendly customer service throughout the store.

Software Development Intern
Union Pacific Railroad (May 2018 - August 2018)
Implemented a new interface for viewing shipment data using AngularJS and Spring. Collaborated with team to define and accomplish goals according to business needs. Presented to managers, directors, and VPs.

Projects

Historical Baby Names
Tableau Dashboard
Visualizes historical baby name data from the Social Security Administration. Shows state-by-state change in baby name usage from 1910 - 2017.
